Enter a world of natural beauty below the scenic Greenbrier Valley. Descend 120 feet below the Earth's surface into a vast wonderland of stalactites and stalagmites. **Lost World Caverns** is a truly magical place for both young and old. We offer **self-guided tours** so you can take your time to explore the cavern at your own pace. It will take you approximately an hour to complete your tour. A guide sheet is provided to tell you about the many different formations that make up this half mile journey. Just remember to stay on the trail. No matter what the temperature on the outside, the cave always remains a constant 52 degrees. A light jacket and good walking shoes are recommended.

You'll see formations such as *The Snowy Chandelier*, a 30 ton compound stalactite presumed to be one of the nation's largest. *The Bridal Veil*, a beautiful column of sparkling white calcite. *The War Club*, a 28 foot stalagmite made famous in 1971, on which Bob Addis set a Guinness World Record for stalagmite sitting. These are but a few of the formations you'll see when you visit Lost World Caverns.

Photography is allowed so **bring your camera** and take home more than just a memory.

You can **browse through our natural history museum** and learn about the Tyrannosaurus Rex, Triceratops and the prehistoric cave bear whose remains were discovered in 1967 within the cavern.

We also offer **gemstone mining**, where you will enjoy the thrill of finding a variety of semi-precious gemstone, arrowheads, minerals, or ancient fossils the old fashioned way by using a screen in an authentic water sluice that are yours to keep.

We have a large picnic area, so bring your lunch and enjoy the peaceful country view.
